

Senior Project Manager - Spacecraft Systems Development (m/f/d)

at Berlin Space Technologies

About Us

Berlin Space Technologies GmbH (BST) is a global leader of #NewSpace, and one of the Deutscher Mittelstands Summit's #Top100 most innovative German SME of 2023. BST develops and markets satellite systems weighing up to 500 kg. BST is set to open Germany's largest satellite factory next year and is already a key part of the German space industry. We offer a full scale of cost-efficient products and associated services ranging from subsystems to full satellites. BST is a vertically integrated company with more than 100 employees from 15+ nationalities. We offer attractive employment conditions, flat hierarchy, modern workplaces, hybrid working, and flexible working hours in a space technology company with global reach!

Overview

To meet major project milestones, we are looking for a Senior Project Manager, to join the team of our Projects Department. It is currently composed of 10 people representing 6 different nationalities. Your focus area will be coordination, planning, and steering of our small satellite projects (50–500 kg). You will be responsible for internal project management and coordination with customers, partners, and suppliers.

Your Tasks

- Coordination, planning and management of small satellite, subsystem, GSE and qualification projects
- Task, resource and schedule planning
- Implementation of plans and risk management
- Quality control and operational monitoring
- Planning and conducting meetings
- Project management and administration
- Contributing to training programmes (e.g. teaching on industrial training courses or business trips as part of the programmes)
- Involvement in public relations (e.g. organising conferences)
- Preparation of documentation (e.g. terms of reference, project documentation, final report, etc.)
- Organisational support for suppliers and cooperation partners
- Customer support

Your Qualifications

- Bachelor's or Master's degree (technical development or industrial engineering with a focus on project management)
- at least 5 years of professional experience
- Strong aerospace technical knowledge required (>5 years of professional experience with institutional space projects are a plus)
- Familiarity with project management tools (Projektron BCS or comparable) and productivity tools such as Word, Powerpoint, Visio, and GitLab, (Lyx is a plus)
- Fluent English, written and spoken (German is a plus)

Please consider applying even if you do not fulfil all the qualifications.

Your Benefits

- A job in the most exciting industry in the solar system
- Working in a passionate, friendly and international team
- Diverse and challenging tasks with space for your own ideas
- Fast decision-making processes and dynamic, team-oriented working environment
- Flexible working time, hybrid working, and paid overtime

Interested?

Then please send us your resume with salary expectations and earliest possible starting date by email with subject "Project Manager" to jobs@berlin-space-tech.com (contact person: Mr. Alix CHOMA BEX). We are looking forward to your application.
